The following New Yorkers are booked at Cole-The following New Yorkers are booked at Coleman's as having arrived to-day. E. S. M'Cullum, W. A. Guest, O. Charlick, (Old Charlick, we presume, or Obadish, or Oliver,) E. B. Hart, W. Freach, T. S. Prince, Dudley Selden, (who will find it difficult to make his peace with senator Archer en native Americanism,) and Thos. A. Emmit. We remarked, while in New York last, a monument in St. Pau's church yard to Thomas Addis Emmett. We cannot imagine, therefore, that his is the same distinguished man.

We cheerfully comply with the request of a friend in stating, that while senator Westcott, of Florida,, is a friend of the administration, and a friend of the party, when questions of principle are the issue, he knows no friends, nor any party, but the friends of the night, and the party sustaining the right. We cheerfully endorse the honorable Senator and his creed, and excuse his vote for Dickins, accordingly.

The journal having been read, Mr. Millorov Brown of Tennessee, announced the death of his late colleague. Mr. Prov. The customary resolutions were adopted after a feeling address by Mr. Brown, and the House adjourned till Monday.

PHILADELPHIA, Dec 12, 1846.
Commodore Elliott was buried at two o'clock this afternoon, with military honors. The volunteers of the first Brigade, under the command of Gen. Cadwallader, formed the escort. The procession included the officers of the suring and navy now in this city, the officers of the second and third brigades of militing, and a detachment of sailors from the Navy Yard. The battery of the first regiment of artillery formed a prominent portion of the cartige. The interment took place, with appropriate ceremonies, at the U. S. Naval Asylum, on the banks of the Schuylkill, on the road to Grey's Ferry.

The beautiful barque General Pacz, 250 tons burden, was launched from Hammett & Son's ship yard, Kensington, at two o'clock this afternoon. It was built for Dallett & Brothers, of this city, and is the vessel which was cut through the spar deck by a fragment of the exploded fly-wheel mentioned above.

The stock market improved in activity to-day, but prices exhibited considerable fluctuation. Girard and U. S. Bank shares declined. The following are the quotations:

Effect of the Foreign News on the Markets-The-

atricals, &c. &c.

The foreign news has been looked for here with the greatest anxiety, and there seemed to be a presentiment in the miads of many, that it would marially affect the cotton market-and acting under this view, many holders of cotton made large sales at a decline of about ic. The whole amount of sales during the past week amounted to 22,600 bales. The news came to hand on Sunday, after the papers had been published, but was very soon bruited abroad with the rapidity with which unpleasant tidings always spread. The effect of the intelligence, so very impor-

complete stagnation in the cotton market, and it will probably be several days before it will assume anything like a settled state—and the next operation will probably show a material reduction. The crop is more than an average one, and there is less of an inferior article in the market than heretolore. The sales yesterday did not certainly exceed two hundred bales, and that at a reduction of and i cent into at present, holders are unwilling to submit to this reduction.

The principal operations are now in flour and corn, and for several days to come, the sales will probably be heavy. Immediately after the reception of the news, the price of flour raised from \$6.50 to \$7, \$7.50, and in some cases to \$5 per barrel; and it would excite no surprise, if a further take of 25 cents should be made today. The sales yesterday were reported at about 900 barrels, but I am inclined to think that they reached a thousand. Some large sales at \$8 have been reported this morning; but I cannot ascertain with any certainty the amount, and am inclined to think that it is a mere rumor. There is plenty of flour on the river coming down, but it will hardly lower the prices. Corn brings from 80 to 82 cents a sack—about 2,000 sacks were disposed of yesterday. The weather has, been intensely cold for the last ten days, the mercury ranging in the neighborhood of 30 degrees, and will seriously affect the sugar market, as it will greatly injure the fields of cane.

New Observes Dec. 4, 1845

NEW ORLEANS, Dec. 4, 1845. State of the Market-Amusements-Severity of the Weather-Murder of a Slave.

Since my last, the cotton market has somewhat improved, although it is said by the knowing ones to be a mere temporary improvement-caused by the recent purchasers buying at slightly reduced rates, in order to make a false aspect in the market, that they may push off their recent purchases at the ing is a statement of the number of vessels in port on the moing of the lst inst, and at the same time last year:-

that they may push off their recent purchases at the same rate, if not at an advance. The sales yesterday amounted to about 6000 bales, at 6½ a 6½ cents for good middling; and 7½ a 7½ cents for lair. The present hour, half pust 12 o'clock, 1 have heard of the sale of about 2000 bales at the same rate. The greater part of these purchases a e on English account. The market, however, is still in an extremely unsettled state. The intensely cold weather continues with, to-day, a heavy fog, and the sugar market is materially affected by it, very little business being done. The corn and flour market is in about the same state as when I wrote you last, and some large purchases have been made at the rates then quoted. A large lot of damaged flour was disposed of yesterday at \$4\$ a \$4\$ oo per burrel. The present weather is unexampled in this part of the country, such cold has not been experienced for more than fifteen years.

such cold has not been experienced for more than fifteen years.

The places of public amusement are rather thinly stended—Chippendale has arrived in town and opensat the St. Charles, to-morrow evening, in "Old Heads and Young Hearts;" Miss Clara Ellis is still here. The French Opera troupe produce "Robert le Diable" tonight, but I fear the weather will keep the fair Creoles away. Signora Pice and Antognini have, I understand, postponed their concert on account of the weather. There is very little doubt now that we shall have an Italian Opera in February or March.

Considerable excitement is caused here by the murder of a slave by his master, Joseph Laupre, a baker, who whipped him so severely that he died. He was buried under a certificate given by one Dr. Barbe, before the slave died. The affair leaked out and the brute was arrested and is still in custody, awaiting examination.

BREADSTUFFA.—We have no alteration to make in the prices of flour. Generee will readily bring \$6-20, at which price there are more buyers than sellers. Transactions on a large scale are beginning to be scarce; operators preferring to wait for further European intelligence. The market price, however, ranges from \$6.25 a \$6.31; for Genesee. Scathern can be bought at \$6.25. Wheat brings \$1.33 a \$1.34. Corn \$1 cents; rye 80 cents.

Cents. The market remains firm, with small transactions. The sales to-day are reported at 600 bales, of which shippers took one-half. We continue our quota-

LUCINA CORDIAL,
OR
ELIXIR OF LOVE.
A Sthe touch of earth restored vigor, activity and confidence to the exhausted arteries, so with that glorious preparation LUCINA CORDIAL, reinvest the generative organs, however weakened, with their original power. There is not a shudow of a doubt that this is true, and were not the subject of foo delicace a nature, hundreds would testify to the univalled efficacy of this Cordial as a specific for barrenness, fluor albus, gleat, irregularities in the secretions, pains in the kin neys, female suppressions, to the reverse) prolepsus uters, and in fact almost every disease to which the most delicate portion of the human organization is hisble. It cannot indeed, cure malformation of the parts, but for any thing short of that it is offered as an infallible cure for barrenness, while in all the other diseases enumerated above, whether acute or chronic, it will be found a safe and soveroign remedy. The Lucina Codial is a gentle tonic, operating generally upon the ser-eituve organiand bracing the whole system without so far atimulating any function as to produce subsequent relaxation. On the contrary, it seems to act in perfect harmony with mature, and does not create atemporary vigor, but a permanent renewal of the natural energies. The first bottle used will fully convince the purchaser of the truth of all we have asserted.

MEDICAL NOTICE.

P. R. COOPER, 14 Duane street, between Chatham and Wilter and the streets, has for the last ten years confined his practice to the treatment of venereal, mercurial and other diseases of a delicate nature. Dr. Cooper spent years in a celebrated Lock Hospital, and has for the last ten years enjoyed the most extensive practice in private diseases of any medical man in New York. He can cure the most aggravated cases of this disease, and nild cases removed in two to five days. The Dr. is a regularly educated physician and surgeon and never suffers his patients to leave until a perfect cure is performed.

Stricture—Ductor Cooper has discovered a new method by which he can cure the worst form of Stricture in from one to two weeks, with scarcely any pain to the patient.

Constitutional Debility, brought on by a secret habit indulged in by young men.—This, when too freely indulged in, begets dyspepsia, weakness of the limbs, and small of the back, confusion of intellect, forgetfulness, palpitation of the heart, and aversion to society. A cure warranted in every case or no charge.

confusion of intellect, forgethilness, palpitation of the heart, and aversion to society. A cure warranted in every case or no charge.

DOCTOR CORBITT, Member of the University of New York, also member of the Medical Society, has removed his office from 16 Duane street to 3 Oliver street, near Chatham Square; may be consulted confidentially on all diseases of a delicate nature. Strangers are informed that the Doctor has exclusively confined his practice from being general to the treatment of certain classes of diseases, (now over thirteen years in the city of New York,) which engages his entire attention.—The annals of usedicine do not record greater success than is to be found in his practice. The Dector cautious the unfortunate against the use of mercury, as it has its thousands of victims. Recent cases are removed in three or four days from the system. Those protracted and maltreated cases that have been under the treatmer "ysicians less experienced, will be sure to find prompt relief by calling on Dr. C. A practice of many years has established the Doctor's reprofound attention. A medicine may be had to prevent a certain disease in any of its forms. Open from 7 A. M. to 10 P. M.

PRIVATE TREATISE,

ON certain delicate diseases, in which the best and most convenient means of cure are attack in the plainest possible manner (the prescriptions used in the author's own practice being given without reserve); giving also a clear and faithful description of several innocent disorders frequently mistaken for venerael, which afford a wide field for the extortions and deceptions of a well known boasting class of people. None but those who have had peculiar opportunities of judging, can possibly imagine the numerous and varied sources of deception which exist on this subject, nor the sufferings, both in mind and body, they entail upon society. To be had only at 86 Greenwich street. Price \$1. (It may be sent by post, unbond.)

P. S. Aware of the opinion in general secretarized states. and body, they entail upon society. To be had only at 88 Green, the street. Price \$1. (It may be sent by post, unbound.) A ware of the opinion in general entertained of those who obtrude their skill upon the public (multitudes of whom are seen in almost every paper), it is considered a duty to give the following statement the ground on which this little book claims expecial confidence.

Besides the author's rank as Graduate of Edinburgh, &c.—has former works on medicines of The "Domestic Guide to Medecine," which has passed through everal editions, a Treatise on Dyspessia, on the Epiderine Cholers, &c., &c., he has test timonial letters from the most eminent in America, a special confidence of this city, Dr. Physick of Philadelpha, and others, and whigh is most gratifying, has permission to refer to almost every physician of eminence in the city,

T. The author has lately observed that several pretenders have as nearly imitated his advertisements, and the title of his hook, as they could do; but those who should unformately happen to be misled will very soon detect the imposture.

MY RAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers—liair washed with this Entract soon becomes pleasingly soft and luxuriant its growth: and it will positively bring in new hair on baid heads by its use, and hair that has been made hard, and is turning grey or falling out, by the use of spirit or other improper preparations, will soon she restored to its ustural color and brilliancy by a few applications of the East Lustral.

It is a preservative against baldness, and an infallible cure in all affections of the akin on the head, as dandruft—and for preventing the falling off of the hair and turning grey.

It is the simple produce and immediate extract of some plants adjustry for the hair, endowed with properties so highly cleaning that it disengages the Epidermia and Capillary tubes of the corresive action of the Perspiration, and of the dry and dead particles that it deposits. This preparation purifies the hair, and gives to it a beautiful gloss and softness, and an agreeable and vivilying perfume.

UNIVERSAL RESTORER OF HEALTH.

THE PROPRICTOR of this Sanative begs respectfully to Inform the inhabitants of this city and the public generally, that he is now prepared to furnish them with this invaluable remedy. And in presenting this great remedy to the public, the proprietor deems it only necessay to state that he alone is acquainted with the art of preparing it, and from long and practical acquaintance with the ingredients of which it is composed, and their ample and sanctive effects in preserving and resorning health, he is fully enabled to assure trem, that this medicine is one possessing medicinal properties for suppassing any thing heretofore offered for the relief of suffering humanity, or for the restoration of health; indeed, so potentare it powers for good over the human frame that it requires a dose so small to accomplish its effects, that many might feel disposed, from that circumstance, to rank it among the many useless nostrums of the day. But the day of superstition and ignorance has passed by, and the highly cultivated mind of man has discovered that the curative virtue and quality of any of the medicinal plants and nerbs, does not so much depend upon quantity as upon the quality fairly extracted and fully understood. Although this sanative is thus almost all powerful in restoring health, and arresting diseased action, yet so perfectly safe and certain is it in its administration, that it can be taken at all times and under any circumstances. The proprietor, therefore, under the fullest assurance that this sanative will accomplish all that be states, unhesitatingly recommends it as a general remedy for disease, (believing as he does that disease is but one and the same thing although presented in different forms,) but especially for the following, viz:—Asthma, Coughs, Colds, Consumption, Bronchitis, Dyspepsia, Liver Comp isnia in all its forms, Indigestion, Costiveness, Headache, Palpitation and other diseases of the Nerves, Palsy, Goat, Gravel, and all affection of the

DR. MARSHALL HALL, one of the most celebrated Physicians in Europe, is the discoverer of this valuable medicine. It is now used in his practice among the nooninty of Europada and through the continent of Europe, and in every instance where used according to directions, has produced the most happy results. It is exclusively directed to the cure of such complaints as arise from a disorganization of the generative organs. Its quick and wonderful action is such that coldness or imbecility cannot remain in the system that is under its influence for half an hour. It will afford decided relief to those who by early indulgence in solitary habits, have fallen into a state of chronic debility.

Constitutional weakness, brought on by a secret habit indulged in by young men. This is, when too frequently indulged in, the greatest evil that can befall man. Dyapepia, weakness of the limbs, and small of the back, confusion of intellect, forgetfulness, pulytation of the heart, aversion to society, consumption, emaciation, are the symptoms of this disease. Gleets, whites, obstruction of certain evacuations, total importency and barrenness are removed by this medicine.
